

OCTOBER NEWSLETTER

Hello Families,

October is a busy month! Please read through the newsletter to stay up-to-date regarding school events.

RPC Gear

It's time to get your Redwood Prep gear! The Redwood Prep Online Web Store, through Sport & Cycle, is now open. You can access the store using the link below. Most items are available in 2 logos and colors. I noticed that you do not see the color and logo options on your phone unless you click on an item. The store is open now through Tuesday, October 7. No late orders will be accepted. Orders will be placed online, and all gear will be shipped to the school for pickup approximately 4 weeks after the store closing date (October 7). Please get in touch with Dawn Carroll at dcarroll@redwoodprep.org if you have any questions, or email Taren at Sport & Cycle (taren@sportandcycle.com). CORE VALUE IN PRACTICE

Building Connections with Our Community

Last month, I highlighted our core value of community—specifically, how we build it within our school. This month, I'm excited to showcase how we extend that spirit to our larger community.

On Friday, September 26th, we hosted a special rotation day called "Community Heroes: Workers Who Keep Things Working." Students rotated through three engaging zones, each offering hands-on learning experiences: **Transportation & Infrastructure Zone** – Students explored trucks from PG&E, Caltrans, Recology, and Customer Service Trucking, learning about the vital services that keep our community running smoothly.

Agricultural Zone – Students tasted fresh vegetables and honey, made their own butter, and learned about farm animals from an RPC alumni, gaining appreciation for our local agricultural industry.

Forestry & Engineering Zone – Representatives from Humboldt Redwood Company led interactive activities related to engineering and construction, inspiring students to consider these exciting career paths.

This event was a tremendous success, opening students' eyes to future career opportunities while strengthening our connection with the agencies and organizations that make our community thrive. We're grateful to all our community partners who shared their time and expertise with our students!
