Hi Clara,

According to our sports eligibility policy, students become ineligible when they have 2 or more missing assignments. I just wanted to let you know Carl is now ineligible for basketball, since he has 7 missing assignments from my class. You can check his progress on google classroom, as well as online gradebook. However, I have noticed that you have not yet logged into the gradebook. Do you need some assistance in logging in?

Thank you  
Karen Schmendall

Hello Mrs. Schmendall,

Thank you for letting me know. I do not need any help logging in. I will speak with Carl about this, but I must say I think this is a bit ridiculous. He should still be allowed to play. School work should not determine eligibility. He loves sports and always works hard in practice and in games. What do we need to do to get him caught up?

Clara,

I'm sorry if you disagree with the sports eligibility policy, but you and Carl both agreed and signed prior to basketball starting. As I mentioned in my previous email, you can check his missing assignments on google classroom or the online gradebook. At this point he needs to get 6 assignments completed to be eligible again. He will likely need support in getting these assignments completed. Basketball will be over in 2 weeks. I hope he can get caught up and get to play again before the season ends.
