A horrifying event has shocked the Humboldt County community. Last night about 11 p.m., Supervisor Bex Rohn was found dead in the mezzanine of the Scotia Lodge.

At first, it was believed that Rohn had fallen ill and died. However, a deceased mouse was located near a cupcake that Rohn appears to have been eating just before he died. A toxicology report is pending, according to Humboldt County Sheriff's Department spokesperson. Poisoning is thought to be the cause and foul play is suspected, the Sheriff's spokesperson told us.

Rohn had been attending the Redwood Prep gala as an auctioneer as he has done for many years. Rohn has been Supervisor for the First District for many years and his tragic death has left many of his constituents grieving.
