*Maximum Length of Time:* For students in all programs of independent study, the maximum length of time that may elapse between the time an assignment is made and the date by which the student must complete the assigned work shall be as follows:

- For pupils in kindergarten and grades one through three, **up to three days**
- For pupils in grades four through eight, **up to three days**

When special or extenuating circumstances justify a longer time for individual students, the director or their designee may approve a period not to exceed **one week**.

*Missed Assignments:* After 10 missed assignments an evaluation shall be conducted to determine whether it is in the best interests of the pupil to remain in independent study. A written record of the findings of any evaluation made pursuant to this subdivision shall be maintained in the pupil's permanent record and treated as a mandatory interim pupil record. The record shall be maintained for a period of three years from the date of the evaluation and, if the pupil transfers to another California public school, the record shall be forwarded to that school.

**Voluntary Statement:** We understand that independent study is an optional educational alternative in which no pupil may be required to participate. In the case of a pupil who is referred or assigned to any school, class, or program pursuant to Education Code Section 48915 or 48917, instruction may be provided to the pupil through independent study only if the pupil is offered the alternative of classroom instruction.

**Quality and Quantity; Rights and Privileges; Resources and Services:** The independent study option is to be substantially equivalent in quality and quantity to classroom instruction. Students who choose to engage in independent study are to have equality of rights and privileges with the same access to existing services and resources as students in the regular school program.
